

# laplink PDASync<sup>3</sup>

The Ultimate in PDA Synchronization.

laplink<sup>®</sup>  
connect your world

“PDASync is a great utility for synchronizing your PIM at an affordable low price.”

Simon Ngo, IT Manager, Lexmark Canada

In an increasingly mobile world, synchronizing between multiple handhelds and cell phones can be complicated. PDASync provides a simple, one-click synchronization of contacts, calendars, tasks, email, and notes between your mobile devices and popular applications on your computer.

It's fast, flexible, and easy to use. With PDASync you can synchronize your devices with Microsoft Outlook, Lotus Notes, Lotus Organizer, ACT!, and other popular PIMs.

Synchronize multiple mobile devices to a single PC application, or synchronize a single mobile device to multiple computers. PDASync gives one-click access to customizable settings and options.

## KEY FEATURES:

- **Easy Installation:** wizard-based installations auto-configure most clients, and offer improved automatic mapping of categories and folders.
- **Automatic Port and Device Detection:** communication port settings are automatically determined during setup, and the “Find My Phone” feature easily configures the product for synching with the attached device.

- **Speed-Efficient Transfers:** PDASync synchronizes only updated data to each component, providing high-speed synchronization for most PDA operating systems and Sony Ericsson IrMC phones.
- **Product Updates:** online product updates continuously accommodate new technology and a broader range of supported devices, applications and services.

## Device Compatibility:

- Pocket PC 2000/2002/2003
- Palm OS 4.x/5.x
- Sony Ericsson IrMC phones: including R300LX, R300d, R520m, T39m, T60d, T60c, T60LX, T61, T61z, T62u, T65, T68i, T68m, T610, T616, T618, T628, T630, Z600 and Z608 phones

## Applications Supported:

- Microsoft Outlook 98/2000/2002/2003/XP
- Lotus Notes R5/6.0/6.5/7.0
- Lotus Organizer 5.0/6.0/6.1
- ACT! 2000/5.0/6.0

## PC Requirements:

- Windows 98/Me/2000/XP [Home & Professional]
- 486 or higher Pentium-compatible CPU
- 32 MB of RAM
- 20 MB of hard disk space
